MINING EXPRESS SOLUTIONS

Emo Trans is a leading provider of mining spare parts logistics. We work closely with our mining customers to keep their production schedule in revenue service. Emo Trans mining services moves parts as small as 1 kilo up to and including major assemblies and out of gauge over height odd shaped cargo.

24/7/365 Global Mining Service

Emo Trans express mining services: supported by a worldwide network of express services towers situated in most continents is manned 24/7/365 by senior mining logistics personnel. Our express mining service has been refined, and our logistics skills enhanced to provide fast, dependable and efficient delivery of mining spare parts – 24hours, around the World. At Emo Trans we take full responsibility for the entire shipment, point to point.

Next flight out (NFO)

Emo Trans's mining services personnel are specifically trained in mining parts routing to identify immediately the most time efficient routing of your express order, utilizing our unique NFO service. Our extensive Global and domestic network of offices maintain a constantly updated air, road and rail schedule into and out of their locations, so we can book your express part onboard the next available aircraft, train or road transport after order readiness has been confirmed.

Dedicated Ground Transport

Emo Trans mining services combines efficient air transport to remote landing site with dedicated delivery services. These delivery vehicles are used to pick up from the arriving flight and deliver time critical packages to mine site.

SUCCESS BY PERFORMANCE

Remote Site Logistics management

Emo Trans mining services recognises that the success of logistics planning for remote locations has a significant impact on the success of the whole project and influences management of costs and delivery of project scheduling. Emo Trans mining services provide a full suite of services to manage the supply chain and create a fail safe environment for successful development, and operation of your mining project.

Odd-Shaped, Over-Sized, Over-Weight mining parts

Emo Trans is pleased to advise that we have extensive expertise in the movement of over dimensional out of gauge cargo. Our experienced personnel are well trained in the differing oversize and over mass regulations from state to state in Australia and will ensure your shipment arrives without delays. Handling oversize and over mass consignments is a specialised skill, call Emo Trans for a complete solution.

Dangerous Goods Movements

Emo Trans mining services can receive and facilitate the movement of mining dangerous goods. Emo Trans is committed to offering our valued customer base a dangerous goods service that is industry best practice, all Emo Trans dangerous goods service providers undergo extensive and continuous in-house and industry provided training, which includes but is not limited to the following:

- In house provided training in aviation and road transport procedures and documentary requirements,
- Industry provided training in respect to dangerous goods by air acceptance training.
- Airfreight Security Regulations training
