Utilising the structure and flexibility within our company, EMO Trans is perfectly equipped to focus on being the competent partner to enable you in today's marketplace. Our tailored services, global reach and local knowledge is a perfect fit for your business needs.

Our aim is your satisfaction. This is achieved by exceeding the expectations of both you the supplier and your clients.

Our mission statement is Success by Performance, not just words, but the way we run our business and our undertaking to you.

EMO TRANS TOTAL LOGISTICS SOLUTION

Trusted Partner

EMO Trans, since its inception, has enjoyed a proud history of close and long client partnerships. These partnerships have been built on hard work, honesty and above all success at being able to satisfy the needs of those who placed trust in our ability. The resultant mutual trust has resulted in our clients to be our best advertisement to the marketplace.

We pride ourselves on being Solutions Based and Success Orientated. Taking the time and making the effort to understand the business of our clients and the requirements that they have to fulfil to empower them in today's global economy

It is the personal attention and service that stands EMO Trans apart. There are no call centres and no answerphones. When you work with EMO Trans, you have an individual that you can always call directly, an individual who knows the whereabouts all of your shipments, a professional who can advise on the best method to attain your specific needs and goals.

Special Handling

As wide and varied as your needs are, EMO Trans welcomes the hard shipments. Over the past 50 years we have assembled the expertise and licensing to undertake the difficult.

From Lifesaving Time and Temperature Sensitive Radioisotope Medicines to Heavy Construction Equipment, from State of the Art Electronics to Jet Engines, from High Fashion to Toxic or Explosive Materials, we offer an extensive range of Specialised Services to Move, Handle, Pack, Store and Distribute securely and safely to your needs.

Project Logistics

Whether it be a Ground up Build, a Ship or Barge Charter, an Aircraft Charter or an Ultra Heavyweight Truck and Placement Project, EMO Trans has the expertise to ensure such important and challenging capital projects are completed on time and on budget. Our project specialists, both locally and globally, work closely and collaboratively to advise and expedite throughout the entire process to ensure successful negotiation of every obstacle.

Advanced Technology

Today's "e" world demands IT systems that provide immediate results, accurate reporting and ease of system interaction. EMO Trans can boast systems that are on the leading edge of technology. Extensive reporting and tracking functions available to your team in real time, in a variety of formats (including integration with most clients' in house systems) provide information enabling the decision process in our clients businesses.

Our Integrated Customs Systems mean that your shipments are cleared seamlessly on arrival ensuring availability of your cargo in the shortest possible time.

The system also offers simple one invoice billing with access to full on line access to allow accounting departments to quickly and easily cross reference each shipment against invoice saving time and money on account reconciliations.

Warehousing and Distribution

When your goods arrive, EMO Trans also offers a range of secure storage options both of bonded and free goods. Added to this a full 3PL service for your distribution linked to a level of reporting data far beyond the industry standard. We are happy to work with you to provide a level of real time, totally accurate, reporting that not only enables total confidence in your inventory but also both confirms and enhances your business planning and structures

TRACK AND TRACE CAPABILITY

EMO Trans Total Logistics Solution offers a “real time” web based track and trace system for our clients. The shipment milestones are updated automatically as each milestone event occurs. Both you and your customers are able to download data from this database, the database itself can be expanded to capture additional fields required by clients. As noted above, this can also be extended to integrate seamlessly into your in house systems for ease of shipment monitoring.

Our Shipment Tracking System offers,

- Door to Door Visibility
- Document Imaging
- Global Office Listing
- Industry Resources Links
- Secure Customer Login
- Shipment Tracking and Visibility
- 24 / 7 / 52 Customer Access

Milestone Notifications

For those demanding clients with tight timelines, we can also add extra assurance by adding automated milestone reporting. This feature, within our system, sends out “actioned” emails to any addresses nominated the instant a shipment passes any nominated points within the process.
